A RESEARCH FRAMEWORK FOR THE ARCHAEOLOGY OF THE EXTRACTIVE INDUSTRIES

BIBLIOGRAPHY FOR THE ENGLISH COAL INDUSTRY

nb. In the bibliography that follows, the use of the word Anon in place of an author's name does not imply that a report was authored anonymously, simply that the authors' names were not present in the sources consulted to compile this list.

GENERAL
Alcock, E 1992 ‘Britain’s Coal Mining Heritage’ Archaeol North 3 17-20 [Summarises eight conference papers on topics including: the importance of British coal mining in the Industrial Revolution]

Crossley, D 1994 ‘Early Industrial landscapes’ Building on the Past. 244-63

Dearne, M J & Branigan, K 1995 ‘The use of coal in Roman Britain’ Antiq J 75, 71-105 [A survey of the archaeological evidence, with an appendix (87–98) listing sites where coal has been found in secure Roman contexts]

Faull, M L 2009 ‘Coal Mining and the landscape of England, 1700 to the present day’ Landscape History 30, 59-74

Gillman, P & Gillman, L 1995 ‘The Heritage of Desolation’ Heritage Today 31, 23-7 [An overview of the archaeology of the mining industry, showing how English Heritage has responded to the threat posed to historic mining sites by the recent decline in the coal industry]

Henson, F A and Smith, R S 1955 ‘Detecting Early Coal Workings from the Air’, Colliery Engineering 32, 256-258
